# Maxwell Walters

Lakeville, Minnesota, United States
thorshammermw@gmail.com                                      612-417-0269
linkedin.com/in/maxwell-walters-0b4392267                    https://github.com/4therealm

## Objective

Seeking a developer position in a fun, fast-paced environment which challenges my creativity, passion and technical skills to develop complex, high quality applications.

## Projects

GuacBottom | https://github.com/4therealm/GuacBottom | https://4therealm.github.io/GuacBottom/

- A recipe storage application where users can save an abbreviated recipe from a provided URL, as well as see the nutrients for the recipe.
- Third party API integration and rendering with jQuery
- Jquery, APIs, Bootstrap, HTML, CSS

Social Media API | https://github.com/4therealm/social-media-api | https://watch.screencastify.com/v/aSQbWggMF1lgIKdNBmf6

- The Server-side API for a social network app. Using a NoSQL database to handle large amounts of unstructured data.
- Integrating routes to perform CRUD operations for users, posts and comments.
- Mongoose, Express, NodeJS, Dotenv

Project Tracker | https://github.com/4therealm/project-tracker-1 | https://project-tracker-app1.herokuapp.com/

- a simple web application for mindmapping. provides a platform for organizing and project reference all in one place.
- MVC communication, user authentication, database management, handlebars integration
- Express, Session, Bcrypt. Sequelize, Handlebars, JSmind

Note Taker |https://github.com/4therealm/note-taker | https://note-application.herokuapp.com/

- A note taking application where users can write, save and deletes notes.
- Managing REST to perform CRUD operations within a JSON file DB
- Express, NodeJS, JSON, JavaScript, HTML, CSS

## Experience

Kambium, Inc. (custom closet manufacturer)                February 2020 - December 2022
**CNC Operator**

Responsible for programming, operating and quality control for the CNC machine to meet customer design specifications in collaboration with designers, engineers and production staff.  Performed maintenance and troubleshooting for both the CNC and bander machines.

Golden Oak Farm (barn wedding venue)                May 2015 – January 2020
**Facilities Manager**

Responsible for farm and site operations including construction, maintenance and land / animal management.  Provided event set-up and direct customer support.

## Education

University of Minnesota                                           December 2022 – March 2023
**Full stack Web Development Bootcamp**
  Completed a rigorous full stack web development program including the following:
      Technologies (e.g. javascript, GitHub, React.js, Node.js,  SQL, MongoDB, REST APIs) and
      Methods (e.g. object-oriented programming, Agile, social coding and project management).

  Team lead for multiple group projects including ecommerce, project management and lost pet
  tracking.  Project examples are included in the link provided above.

**Honors & Awards**
Free style swimming sectional time (2008)
Eagle Scout (2009)
Kambium employee of the month (2022)
